Straw Blower

Model B40

B40 Straw Blower
Skid Mounted (B40S)

The FINN B40 Straw Blower brings mulching ease to small landscaping operations. You save time and energy by eliminating tedious and time consuming hand mulching. And because the unit is both self-powered and portable, it's easy for you to mulch in diverse locations.

Fast & Even Application.

The B40 Straw Blower provides you with mulch cover quality that's far superior to hand mulching. You're ensured of faster and more uniform growth. Blow mulch evenly over large areas with ease. The B40 Straw Blower efficiently shreds and blows 4 tons of straw in an hour.

Flexible & Effective Performance.

The B40 Straw Blower features a convenient discharge spout and optional 6" diameter, flexible hose. It's the ideal solution for proper mulching - providing soil moisture retention and protection against wind damage - in a wide variety of applications including the even cover of newly seeded lawns, around trees and shrubbery, berry beds, and bedding plants.

Specifically Designed To Meet Your Needs.

Like every piece of FINN equipment we produce, the B40 Straw Blower is the result of skilled and experienced manufacturing, as well as the valuable input received

Model shown may include optional equipment.

from our customers. We heard the call for a small and economical, yet highly productive, straw blower; a compact unit with directional discharge and the ability to handle difficult material. The FINN B40 Straw Blower does it all!

As the world leader for over 80 years in the design and manufacture of innovative, quality equipment for the erosion control industry, FINN Corporation is committed to your complete satisfaction.
